ARCHITECTURAL METAL CRAFT

**OUTO
KUMPU**

**Indian Stainless Steel Development Association
in association with the Nickel Institute**

Invites you to attend a workshop on

*Applications of Stainless Steels in
Architecture, Building & Construction*

Workshops will be held at the following cities:

Delhi • Mumbai • Bengaluru • Chennai • Kolkata

December 5 - 10, 2011

*(There is **NO FEE** for attending this workshop)*

The Speaker:

Catherine Houska

These workshops will be conducted by Ms. Catherine Houska, a world renowned expert on the use of stainless steel in building and construction, based in Pittsburgh. She has addressed over ten thousand architects & designers around the world and published over 130 articles in leading architectural magazines and technical publications. She is also a consultant to the Nickel Institute and world's leading general contractors, architectural and structural design firms.

Stainless Steel – The Right Choice

Stainless steel was invented 99 years ago. It is a modern, aesthetically pleasing sustainable material which needs minimum maintenance; is everlasting and costs less on comparing its life cycle cost with other building materials. In the real sense it is the material which can be 100% recycled and this fact may not be known to many people. On an average, the recycled (scrap) content of all stainless steel is over 60%. On recycling, it is not down cycled like other materials e.g. plastics, aluminium etc. On the other hand, materials like ceramic, plastic etc. are not bio degradable, and on being discarded they only add to landfill.

The other aspect of stainless steel is that it is a wonderful material that can be easily engineered into complicated shapes. Also a wide variety of surface finishes, patterns and colours are now available for designers to choose from. Apart from applications where hygiene is paramount, like pharmaceutical, food & chemical processing, surgical equipment, commercial kitchens, household kitchenware etc., it is now finding its increasing use in the Building and Construction sector. Stainless steel hardware, hand rails, plumbing pipe lines, facades, entrances, rebar, etc., are very much sought after. Its attributes like corrosion resistance, beauty, ease of maintenance and durability make it a sensible choice for use in homes and public places.

PROGRAMME

6:00 pm – 7:00 pm	Registration
7:00 pm – 8:15 pm	Introduction <ul style="list-style-type: none">• Sustainable LEED Design with Stainless Steel• Selection and Design Fundamentals• Finishes
8:15 pm – 8:30 pm	Break
8:30 pm – 9:45 pm	<ul style="list-style-type: none">• Building Exteriors – Roofing, Walls, Sunscreens and other Exterior Applications• Stainless Steel Structural Design• Sustainable Interior Design
9:45 pm	Cocktail & Dinner

Workshops will be held at the following locations

Delhi	: Monday, December 5, 2011
Mumbai	: Wednesday, December 7, 2011
Bengaluru	: Thursday, December 8, 2011
Chennai	: Friday, December 9, 2011
Kolkata	: Saturday, December 10, 2011

Workshop Timings at All Venues : 6.00 PM to 10.00 PM

Venue Details :

Delhi

(Monday, 5th Dec.)

The Park

Hall : Yantra
15, Parliament Street
New Delhi 110 001

Mumbai

(Wednesday, 7th Dec.)

Hilton Mumbai Intl. Airport

Hall : Chancellor Suite
Sahar Airport Road,
Andheri (East)
Mumbai 400 099

Bengaluru

(Thursday, 8th Dec.)

Sheraton Bangalore

Hall : Jupiter
At Brigade Gateway
26/1, Dr. Rajkumar Road
Malleswaram-Rajajinagar
Bangalore 560 055

Chennai

(Friday, 9th Dec.)

The Raintree Hotels

Hall : The Mauve & Lilac
636, Anna Salai
Teynampet
Chennai 600 035

Kolkata

(Saturday, 10th Dec.)

Hotel Hindustan International (HHI)

Hall : Topaz
235 / 1, A J C Bose Road
Kolkata - 700 020

Registration Form

(Please post, fax or email to reach us by before 25th November, 2011)

I / We wish to attend the workshop on the '**Applications of stainless steel in Architecture, Building & Construction (ABC) sector at:** please (✓ tick) the appropriate venue.
